

# BOIL WATER ADVISORY

## BOIL YOUR WATER BEFORE USING

**FOR CUSTOMERS OF Borough of Roseland Water System PWSID# 0718001**

**Roseland Water Department** is providing notification that a water main break occurred on 11/8/2022 at 5 -7 Westview Avenue in conjunction with a valve failure at the Water Tank which has caused customers within the service area listed below to experience a significant loss of pressure and possibly total loss of service. A potential or actual threat to the quality of water being provided to you currently exists. As a precaution, we are implementing a Boil Water Advisory until testing of the water supply is deemed satisfactory.

### What should I do? What does this mean?

Effective immediately and until further notice, customers within the impacted service area from Monroe Ave and Eagle Rock Ave to Eagle Rock Ave and Becker Farm Road inclusive of the following streets:

Monroe Ave.	Evergreen Place	Westview Ave
Hillside Ave	Belaire Dr	Fernwood Ave
Condit Ct	Belaire Ct	Decap Ave
Freeman St	Roosevelt St	Woodland Rd
Knoll Terr	Pier Lane	Steel Ct
Plymouth Pl	Park St	Harrison Ave
Mitchell Ave	Cortlandt St	Eagle Rock Ave
Gates Ave	Lincoln St	Leonard Terr
Godfrey Ave	Williamsburg Drive	Bartlett Ct
Lyons Ave	Maple Ave	Varick Way
Roseland Place	Rutgers Ct	Ebersbach Lane
Roseland Ave	Conover Ave	
Tannery Lane	Cobb Terr	

All customers within the aforementioned areas are instructed to bring tap water to a rolling boil for one minute and allow the tap water to cool before using or use bottled water. Boiled or bottled water should be used for drinking; preparing foods; mixing baby formula, food, juices or drinks; washing vegetables and fruit; cooking; making ice; brushing teeth; and washing dishes until further notice. Boiling kills bacteria and other organisms in the water.

The following measures are also recommended:

- Throw away uncooked food or beverages or ice cubes made with tap water during the day of the advisory;
- Keep boiled water in the refrigerator for drinking;
- Do not swallow water while showering or bathing;
- Rinse hand-washed dishes with a diluted bleach solution (one tablespoon of household bleach per gallon of tap water) or clean your dishes in a dishwasher using the hot wash cycle and dry cycle;
- Do not use home filtering devices in place of boiling or using bottled water; most home water filters will not provide adequate protection from microorganisms;
- Use only boiled water to treat minor injuries;
- Provide pets with drinking water that has been boiled (and cooled).

**Please continue to boil your water or use bottled water until you are notified that the water quality is satisfactory. This advisory will remain in effect until repairs are completed and testing shows the water quality to be safe.**

We are working as quickly as possible to restore your water quality. Thank you for your patience. If customers have any questions please contact: Chris Critchett at (973) 403-6856 or Roseland Police Department at (973) 226-8700.
