Council agreed to support the Municipal Resolution in Support of Electric Vehicles as recommended by the Committee. The resolution will be added to the July 16th agenda.

The Committee is reviewing a draft ordinance to amend the zoning ordinance to regulate the placement of portable basketball poles on town streets as a result of incidents with snow plows during the winter, leaf vacuum during the fall, and street sweeping activities. The Committee is reviewing similar ordinances from other towns.

Councilman Bardi reported that there has been no response from the three local high schools regarding creation of a mural for the dais in the public meeting room at 19 Harrison Avenue. Jessica Freda presented a concept plan for Council’s consideration. Mr. Bardi announced that the state has certified the Borough’s budget and tax levy, and tax bills are expected to be mailed during the week of July 22nd. A presentation reviewing the tax bills will be made at the July 16th Council meeting. The latest mockup of the new website was received today and Council agreed to proceed with the project with the condition that the format of the calendar be changed back to the original color scheme.

SHARED SERVICES

Councilwoman Perrotti reported that there is progress on a lease extension with the Roseland Board of Education. Borough Attorney McDonnell will be working on the language for the extension and a hold harmless agreement. Council authorized moving forward with the planning of the playground upgrade in anticipation of the lease extension being finalized.
REDEVELOPMENT AND LEGAL

Council discussed the Green Acres application process for Tedesco Park. Council agreed to put two ordinances on the next agenda regarding electronic cigarettes. The second ordinance will amend the zoning ordinance to prohibit the sale of electric cigarettes within the Borough. The proposed zoning ordinance amendment will be forwarded to the Planning Board. Council discussed the possibility of installing one or two digital public announcement signs. Recreation Director Colitti provided information regarding similar signs in use in other towns. The matter was referred back to committee to discuss the possibility of sharing the cost of a sign with the Roseland Board of Education, potential corporate sponsorship, location and number of signs, and to get more accurate cost estimates for purchasing and installing a sign.

Borough Attorney McDonnell explained Senate Bill S-1611 regarding Property Assessed Clean Energy (PACE) Legislation. The legislation is intended to encourage the use of renewable energy systems and renewable energy products and would authorize municipalities to establish a program for public or private financing of projects under the PACE program to be undertaken by property owners as local improvements and the provision by ordinance for a PACE special assessment to be imposed on properties within the municipality. The legislation is still in Committee at this time. Mrs. Chumacas added that on last year’s Best Practice Questionnaire, the Borough agreed to discuss and consider the program, and that this year’s questionnaire will likely ask whether or not Council will take advantage of the program if enacted.

PUBLIC WORKS

Councilman Freda reported that the Committee is awaiting an estimate from the Borough’s water and sewer engineer to perform smoke testing of the sanitary sewer system so the Committee can evaluate whether or not it would be cost effective to do the testing in house. The NJ DEP recommends testing, maintaining, and repairing twenty percent of the sanitary system annually.

Council discussed the possibility of purchasing an asphalt spray patch system and an asphalt roller. Mayor Spango will reach out to shared service communities to see if there is any interest in sharing in the cost and service of an asphalt spray patch system. Mr. Freda explained that the Department of Public Works (DPW) capital equipment request included replacement of garage doors at the DPW building and the fire house because the doors are rotting and spare parts are no longer available because the operating equipment is obsolete.

Council discussed complaints that the garbage contractor has been starting collection in residential areas at 5:30 AM, while the contract prohibits starting in residential areas before 7:00 AM. Council asked Administrator Chumacas to follow up with contractor to let them know they can start before 7:00 on county roads in accordance with the contract, but cannot start on residential streets before 7:00 AM.
