BOARD OF ADJUSTMENT

INSTRUCTIONS

To request a variance from the Zoning Board of Adjustment, you must submit an application (attached here). A copy of the Zoning Officer’s letter denying you a zoning permit must be attached to your application. 12 copies of each are required.

The Land Development Ordinance of the Borough of Roseland ("the Ordinance") has a fee schedule for various types of applications. Once your application is submitted to the Board, you will be notified of the fee required for your application.

In your application, you must describe what the Ordinance requires (e.g. a 50’ rear yard setback) and what you are proposing (e.g. construction of a deck creating a 47’ rear yard setback). [This example of a dimensional or "bulk" variance is typical of most variance requests; it is a "hardship variance." (See pg. 2)]. The Zoning Officer’s letter of denial should be helpful in this regard because it will state the reason you were denied a zoning permit, and it will describe what the Ordinance requires and how your proposal varies from that requirement.

If you do not own the property that is the subject of your application, you must submit the consent of all owners of the property (see Application form), and a contract for the purchase of the property or other proof of your interest in it.

All municipal taxes on the property that is the subject of your application must be current, and you must submit proof that they are current. This proof is available through the Department of Public Works located at 300 Eagle Rock Avenue. 12 copies must be submitted with your application.

You must submit 12 copies of a list of property owners within a 200-foot radius of your property. This information is also available from the Department of Public Works, located at 300 Eagle Rock Avenue and can be obtained upon payment of a $10.00 fee to the Borough of Roseland. You will be asked to make your request in writing, stating the reason for it – i.e. you are making an application to the Zoning Board of Adjustment.

You must submit a survey of your property showing lot and block numbers, dimensions of proposed and existing structures, location of all proposed and existing structures and their distance to the property lines and to the other structures on the property. 12 copies are required.

You must submit 12 copies of your building plans to the Board.
If you plan to introduce an expert witness at the hearing who will testify on your behalf (a planner, for example), a written report from that expert must be submitted to the Board at least ten (10) days before the scheduled public hearing in accordance with Section 30-603.5(c) of the Ordinance.

You must mark out the area of the property where you propose to locate the new development. This should be to scale and can be done using string, spray paint or some other suitable material that will enable Board members to recognize the area in question when they visit your property. Leave the marking up until after your public hearing.

Photographs depicting the marked out area of development must be submitted to the Board. 12 copies of each photo should be submitted. Also, you must sign and submit 12 copies of the Board’s Site Authorization form (attached here).

Once you have 12 copies of all the required documents, collate them into sets, each set having one copy of each document.

If your application is for a use variance, a subdivision or site plan approval, you also must submit the appropriate application for the relief request. If you are appealing the decision of the Zoning Officer, or are seeking an interpretation of the Zoning Map or Zoning Ordinance, please contact the Board before filing your application.

These instructions are for your guidance in filing for a variance. You also should refer to the New Jersey Municipal Land Use Act N.J.S. 40:55D-1 et seq. and the provisions of the Borough’s zoning ordinance. For example, if you are applying for a “hardship variance,” you will be required to show that:

a.) by reason of exceptional narrowness, shallowness or shape of a specific piece of property, or b.) by reason of exceptional topographic conditions or physical features uniquely affecting a specific piece of property, or c.) by reason of an extraordinary and exceptional situation uniquely affecting a specific piece of property or the structures lawfully existing thereon, the strict application of [the Ordinance] would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship [to you]. N.J.S. 40:55D-70(c)(1).

Alternatively, you can show that:

the purpose of [the Municipal Land Use Act] would be advanced by a deviation from the zoning ordinance requirements and the benefits of the deviation would substantially outweigh any detrimental. N.J.S. 40:55D-70(c)(2).

In either case, “no variance or other relief may be granted...without a showing that such variance or other relief can be granted without substantial detriments to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance.” N.J.S. 40:55D-70.
After you submit the required 12 sets of documents to the Board at its address above, you will be advised whether your application is in order or if any documents are missing. Once it is in order, you will receive a letter from the Board advising you of the date of the public hearing on your variance application. To complete your application, at least 10 days before the date of your public hearing (not counting the hearing date), you must notify property owners of your application and publish notice in one of two newspapers officially recognized by the Board. Instructions for this final aspect of your application will be included with the Board’s correspondence advising you of the date of your hearing.

*****PLEASE PROVIDE A TELEPHONE CONTACT NUMBER WHEN YOU SUBMIT YOUR PAPERWORK TO THE BOARD*****

If you have any questions, you may reach the Board at 973-226-6565.
